

To Whom It May Concern:

I am writing this letter concerning Trilogy Solutions Construction, LLC. We have been using the firm for more than three years for various projects in our operations such as roof repairs, AC repairs, and various concrete projects. About eight months ago, we decided to expand and renovate our main offices. We chose Trilogy Solutions for this large project. They are very good at what they are designing, constructing and hiring the right people. Trilogy really cares about doing 'it' properly as well as how to best make it work for their customer.

Without hesitation I would use them again and clearly recommend that other companies use them for their projects.

Sincerely,

Jeremy Blachman
Chief Operating & Financial Officer
